1.2 History

Uganda is the source of the Nile, and was fondly baptized the 'Pearl of Africa' by the late Sir Winston Churchill when he visited the country in 1907 owing to its beauty and wonder. The country busts with life, magnificence, colour and biodiversity.

The sport of motorcycling in Uganda was introduced on the scene in the early 1960's debuting races like the East African Championship which ran between the two East African countries Kenya and Uganda. Motocross has evolved from "speedway" racing and grass track racing in stadiums and now to the more advanced Motocross at racetracks such as the Victoria Raceway Park at Garuga on the shores of Lake Victoria. The standard Motocross Classes (MX50, MX65, MX85(Lites), MX125, MX2, MX1) were pretty much introduced in Uganda in May 2005 when Uganda hosted its first AMU (now FIM AFRICA) recognised East African Championship in the Lubiri (Buganda King's Palace) circuit.

Today, Uganda has become one of the top motocross powerhouses on the African continent having been honored by FIM AFRICA with hosting the FIM AFRICA MXoAN for the first time in 2012 in which Team Uganda took the Championship beating Kenya to 2nd Position and Zimbabwe to 3rd Position.

Hosting the 2022 edition is an opportunity for Uganda to prove its position among the table of African champions.

3.3 Vehicle and Parts Importation

All vehicles and spare parts, temporarily imported into Uganda must be guaranteed against import duty and taxes. There are three ways in which this can be done:

i) Carnet de Passage

This document allows the temporary importation of a vehicle and any spare parts declared on related documents. Guarantees the payment of import duties and taxes on the vehicle or spare parts, should you not re-export them. It is the most convenient way of temporarily importing a vehicle and spare parts.

The original carnet and related documents must be presented to Customs at the port of entry and again at the port of exit.

The Carnet de Passage is obtainable from your local FMN.

ii) Insurance Bond

This involves the execution of a customs bond with an insurance company. The Commissioner of Custom calculates the duty and taxes payable on the vehicle and spare parts. The importer pays a percentage of the duty and taxes payable, as a premium, to an insurance company, which thus becomes the guarantor.

The original bond must be presented to Customs at the point of exit, where it will be cancelled on re-exportation of the vehicle and spare parts.

iii) Cash Deposit

This involves the deposit of an amount of money, equivalent to the import duty and taxes payable on the vehicle and spare parts, which is refundable on re-exportation of the vehicle and spare parts.

This method is not only very expensive, but also very time consuming.

The organizers are working with the Uganda Revenue Authority for ease of Temporary importation and Re Exportation of racing bikes for foreign teams. Teams are required to provide bike details and mode of transportation to the organisers at latest 3 weeks before the start date of the event.

3.4 Radio Licencing (VHF, 2 Way)

It is illegal to operate any radio communication in Uganda without radio licence. The process of obtaining a license from the Uganda Communications Commission is very tedious, and it is advised that crews requiring to have a team channel utilise one of the mobile phone companies' services

3.5 Medical Cards: N/A

3.6 Personal Accident Insurance: N/A

3.7 Servicing Arrangements

There is only one Pit area at the Victoria Raceway Park, Garuga. Access is by tarmac (asphalt) roads with 0.2 Km murrum.

All service and auxiliary vehicles need plates to gain entry into the Pits. **The entry fees include one stickers for service cars.** Additional Auxiliary Plates may be applied for from the Race office.

Only one vehicle, either service or auxiliary, for each competitor, may be allowed to remain in the pits at any given time.

Any additional vehicles, either service or auxiliary are allowed entry into Pits either to drop spares or Pit crew at the Pits area and must exit promptly after that.

There are several competent outfits that will help with servicing arrangements, who the organiser will help contact on behalf of the competitor.

3.8 Fuel

Petrol and Diesel is readily available at Fuel Stations throughout Uganda.

3.9 Tobacco Advertising

There are no restrictions on tobacco advertising in Uganda at the time of publication of this Event Guide.

Please Read This Section Carefully

All primary roads radiating out of Kampala to all four corners the Country are smooth asphalt. You can expect a lot of speed bumps, some unmarked, and the occasional pothole.

Driving in Uganda is on the left side of the road. Consequently most cars are right hand drive. Overtaking is only on the right side

Please give way to pedestrians on the zebra crossings. Drive safely by observing **traffic signs, speed limits** and by wearing **safety belts**. Talking on a mobile phone (without a hands free gadget) while driving is a serious offence.

All residential, business and industrial areas and areas having streetlights (built up areas), have a speed limit of **50kph**. In some areas, road signs indicate varying speed limits. Elsewhere, the speed limit is **80kph**.

It is an offence to drink and drive in Uganda, and if caught, a stiff fine or imprisonment can result.

Beware of potholes and broken roadsides. Vehicles may come onto your side of the road while over-taking or avoiding a pothole: Most accidents involve buses, lorries, mini buses (matatus) and boda-bodas (motorcycle taxis).

There are emergency breakdown services available in most places in Uganda. **Beware of roadside mechanics if your vehicle does break down.**
